Instructions and tips

- 1) On the chart with symbols and colours you can see the size of the embroidery pattern in inches and the amount of cross stitches. The embroidery patterns of Droomcreaties are based on 14-count Aïda fabric, 14 stitches per inch over 2 threads.

If you want to use another fabric, please calculate the size and amount of cross stitches you need. A shop can help you with this or see the tips on the internet. The following Aïda fabrics are available in most stores:

- 11 ct (count) 11 cross stitches per inch (3 threads)
- 14 ct (count) 14 cross stitches per inch (2 or 3 threads)
- 18 ct (count) 18 cross stitches per inch (2 threads)
- 22 ct (count) 22 cross stitches per inch (1 thread)

Calculate more fabric on each side to frame your artwork and even more if you want to frame it with a passe-partout.

- 2) To prevent the fabric to unravel, you can sew the borders with a sewing machine or use elastoplast that is available in most drugstores.
- 3) Always begin to stitch in the centre of the fabric. Enfold the fabric and place a needle in the middle for starter. Use an embroidery hoop during stitching to tighten the fabric.
- 4) To use DMC effects (E- and S-numbers) for cross stitching makes your artwork even more alive!
Metallic-, fluorescent, jewel, pearlescent, precious metal, antique and other light-effects (recognisable as E-numbers) are more fragile than splitsilk and break off more often.
The S-numbers are soft silk can get entangled and split in smaller threads.
Please use a small skein in length if you use the E- and S-numbers!
- 5) If your artwork is finished, you can iron the fabric by placing a towel on the backside. Frame your work as you wishes!

DROOMCREATIES WISHES YOU A LOT OF EMBROIDER PLEASURE!
